Experience

InkaCode — Cusco, Peru
Founder & Full Stack Developer — *Jan 2024 – Present*

- Founded InkaCode and built its electronic invoicing system, now used by more than 50 businesses.
- Designed and built the InkaCode marketing website to present its services and attract clients.
- Delivered web projects for 2 freelance clients, from design to launch.
- Built the system backend with Phalcon (PHP) and MySQL; currently planning its migration to Go.
- Maintain and continuously improve the system: invoices, sales and inventory.
- **Technologies:** Phalcon, PHP, MySQL, Astro, Tailwind, HTML.

Green Point Restaurant — Cusco, Peru
Head of IT — *Jun 2025 – Sep 2026*

- Built the digital menu, letting guests browse available dishes and book faster.
- Installed the restaurant's network cabling and deployed a third-party invoicing system.
- Led the IT area and provided technical support to nearly all restaurant staff.
- Kept the network and computer equipment stable and running.
- **Technologies:** JavaScript, HTML, IT Support, Astro, Tailwind, Postgres.

AYD Manufacturas — Cusco, Peru
Software Developer — *Mar 2023 – Nov 2023*

- Built the company's WordPress e-commerce site, with a catalog of custom products and services.
- Maintained the online store and published new products and services.
- Designed banners and graphic materials for campaigns and internal training.
- **Technologies:** Wordpress, HTML, Figma.
